

G D Em7  
A long, long time ago,  
Am C  
something magic happened,  
Em D  
when James Watt built a steam machine  
G D Em7  
And with it brought us fossil fuels  
Am C  
to rev up all our power tools  
Em C D  
and build a brand new world - it was a dream

Em Am  
But like all dreams, it couldn't last  
Em Am  
The air pollution grew too fast  
C G Am  
And now the climate's changing  
C D  
It's time for rearranging

G D Em  
Cause physics doesn't care at all  
Am7 D  
The ice keeps melting, while we stall  
G D Em  
7 billion on one blue ball  
C D7 G  
We all will need to try

G C G D  
**So bye-bye to the ridiculous lie**  
G C G D  
**That we have to keep on drilling til the wellheads run dry**  
G C G D  
**Cause if we do, we know the planet will fry**  
Em A7  
**And that would be a dumb way to die**  
Em D7  
**Yes that would be a dumb way to die**

G Am  
Well the good news is, we've got all we need  
C Am  
The power's there - but, so's the greed  
Em D  
We need a revolution soon  
G Em  
Cause the money's gone to a chosen few  
Am7 C  
And they don't think like me & you  
Em A7 D  
'bout the future, no, that's not the way of wall street...

Em D  
But we've got a big election soon  
Em D  
Will it save us all, or spell our doom  
C G A7  
The choice seems pretty clear...

<sup>C</sup>  
Feel the Bern, or feed the fear... ooh!  
<sup>D7</sup>

<sup>G</sup> We need a new supreme court justice too  
<sup>Am</sup> The last one's gone, it's really true,  
<sup>G</sup> Let's send up a prayer or two  
<sup>C</sup> I think, it's worth a try.  
<sup>D7</sup> Cause I'm still singing..

<sup>G</sup> <sup>C</sup> <sup>G</sup> <sup>D</sup>  
**Bye-bye to the ridiculous lie**  
<sup>G</sup> <sup>C</sup> <sup>G</sup> <sup>D</sup>  
That we have to keep on drilling til the wellheads run dry  
<sup>G</sup> <sup>C</sup> <sup>G</sup> <sup>D</sup>  
Cause if we do, we know the planet will fry  
<sup>Em</sup> <sup>A7</sup>  
And that would be a dumb way to die  
<sup>Em</sup> <sup>D7</sup>  
Yes that would be a dumb way to die

<sup>G</sup> <sup>Am</sup>  
Now the reasons, I must have missed 'em,  
<sup>C</sup> <sup>Am</sup>  
For rippin out our life-support systems  
<sup>Em</sup> <sup>D</sup>  
'Cause, that's not how it needs to be...  
<sup>G</sup> <sup>D</sup> <sup>Em</sup>  
We've got geothermal and lots of solar  
<sup>Am7</sup> <sup>C</sup>  
To keep us cosy in the next big polar  
<sup>Em</sup> <sup>A7</sup> <sup>D</sup>  
vortex - brr - and don't forget the wind...

<sup>Em</sup> <sup>D</sup>  
'Cause we've seen how strong that wind can blow,  
<sup>Em</sup> <sup>D</sup>  
And storage - yeah, there's still a ways to go -  
<sup>C</sup> <sup>G</sup> <sup>A7</sup>  
But financing is the key-  
<sup>C</sup> <sup>D7</sup>  
Can we end the oil subsidy?

<sup>G</sup> <sup>D</sup> <sup>Em</sup>  
'Cause with a methane plume over LA  
<sup>Am</sup> <sup>C</sup>  
A melting Arctic and a rising bay  
<sup>G</sup> <sup>D</sup> <sup>Em</sup>  
I'm worried my kid might not be OK  
<sup>C</sup> <sup>D7</sup> <sup>G</sup> <sup>C</sup> <sup>G</sup>  
Unless, we start to try....  
<sup>D7</sup>  
So let's start singing

<sup>G</sup> <sup>C</sup> <sup>G</sup> <sup>D</sup>  
**Bye-bye to the ridiculous lie**

That we have to keep on drilling til the wellheads run dry  
Cause if we do, we know the planet will fry  
And that would be a dumb way to die  
Yes that would be a dumb way to die

From Rio to Paris, they still keep meeting  
To discuss the Mauna Loa readings,  
400 parts & rising fast....

Fossil fuels have been a blast  
But pretty soon, the die will be cast  
I'm afraid our, generation, is the last

To take a stand and make things right  
To make sure our future's bright  
We know what we need to do  
I think that you do too

Cause with Public transit, electric trains,  
Electric cars, and safe bike lanes  
We can even fly in solar airplanes  
But only if we try...  
That's why I'm singing

**Bye bye to that ridiculous lie**  
**That says we have to keep on drilling til the wellheads run dry**  
**Cause if we do, we know the planet will fry**  
**And that would be a dumb way to die**  
**Yes that would be a dumb way to die**

Oh we are one human race,  
On one a little planet, alone in space  
You'd think that we could find a way...

So bring on tiny houses, and safer streets  
Healthy forests, and pastured meats,  
And veggie meals, each & every day...

And if you're waiting for the billionaires  
Remember you are the one who cares  
And nobody else but you  
Can do that thing you do

So bring on your passion, Bring on your dreams  
Together, we can do anything  
The time is now, the train is leaving  
C'mon, we've got to try.  
And we're all singing

**Bye-by to that ridiculous lie**  
**That says we have to keep on drilling til the wellheads run dry**  
**Cause if we do, we know the planet will fry**  
**And that would be a dumb way to die**  
**Yes that would be a dumb way to die**

I met a girl who had a dream  
She saw a future, safe and clean  
So I asked her, can you see the way?

Take a look around she said  
All those plans inside your head  
Make them real, make them see the light of day.

Go out there and tell your friends  
It's not too late to change the end

<sup>C</sup> You <sup>G</sup> could all stand up now or <sup>Am</sup>  
<sup>C</sup> never know your power <sup>D</sup>

<sup>G</sup> So folks I hope you'll follow me <sup>Em</sup>  
<sup>Am7</sup> And be the change you want to see <sup>C</sup> <sup>D7</sup>  
<sup>G</sup> We haven't got a Planet B <sup>D</sup> <sup>Em</sup>  
<sup>Am7</sup> We've got to stand and fight. <sup>D7</sup> <sup>G</sup>

<sup>G</sup> **So bye-by to that ridiculous lie** <sup>C</sup> <sup>G</sup> <sup>D</sup>  
<sup>G</sup> **That says we've gotta keep on drilling til the wellheads run dry** <sup>C</sup> <sup>G</sup> <sup>D</sup>  
<sup>G</sup> **Cause if we do, we know the planet will fry** <sup>C</sup> <sup>D</sup>  
<sup>Em</sup> **And that would be a dumb way to die** <sup>A7</sup>  
<sup>Em</sup> **Yes that would be a dumb way to die** <sup>D7</sup>

<sup>G</sup> **Bye-by to that ridiculous lie** <sup>C</sup> <sup>G</sup> <sup>D</sup>  
<sup>G</sup> **That says we have to keep on drilling til the wellheads run dry** <sup>C</sup> <sup>G</sup> <sup>D</sup>  
<sup>G</sup> **Cause if we do, we know the planet will fry** <sup>C</sup> <sup>D</sup>
